I have heard the expression **zombie out** once or twice.

### Zombie out

To become like a zombie, meaning you will not move or be active at all. It's a colorful way to say I don't want to do anything, I want to just relax and be very lazy. You might say this after a very hard time at school or work.

### DID YOU KNOW?

There are **zombie companies** in Japan. (These are not companies that make zombies!)  
A **zombie company** is a company that needs bailouts in order to operate. (A bailout is when financial assistance is given to a failing business to keep it from collapsing.)

The term "zombie company" was applied to Japanese firms supported by Japanese banks during the period known as the "Lost Decade" after the collapse of the Japanese asset price bubble in c.1990. Japanese banks continued to support weak or failing firms.
