

# Suffix -MENT

## Suffix -ment (Meaning)

The suffix **-ment** is added to verbs to make nouns that mean THE ACTION or THE RESULT OF.

For example, the verb **manage** becomes the noun **management** - the activity of running and controlling a business or similar organization.

The verb **adjust** becomes the noun **adjustment** - a small change made to something in order to correct or improve it. [The result of that small change is the adjustment.]

[ment suffix - OxfordLearnersDictionaries.com](http://ment suffix - OxfordLearnersDictionaries.com)

## The Suffix -ment FAQ (Frequently asked questions)

Can any word be made into a noun with the suffix -ment?

While many words can be made into nouns by adding the suffix -ment, not every word can be turned into a noun using this suffix.

Some verbs simply do not lend themselves to being transformed into nouns with this suffix. Additionally, some words may already have noun forms, and adding -ment may not create a meaningful or useful new noun.

Are all Words ending in -ment nouns?

Not all words ending in -ment are necessarily nouns. I mentioned above there are some words on this list with an identical verb form. Did you find them? I listed the words below.

- Comment
- Compliment
- Document
- Experiment
- Segment
- Supplement
- Torment

Many nouns can also be used as adjectives.

“This is a water **treatment** plant.”

In the sentence the noun is *plant*, the compound ‘water **treatment**’ is acting as an adjective. It is telling us what kind of plant it is. It’s a place where water is treated.

What's the difference between -ment and meant?

Ment and meant are not the same. They have different meanings and slightly different pronunciations.

**Ment** is a suffix that is added to the end of a word to form a noun. For example, "**enjoyment**" means the state or quality of experiencing pleasure, "**judgment**" means the act of judging, and "**treatment**" means the act or manner of treating someone or something.

**Meant**, on the other hand, is the past tense and past participle of the verb "mean." Like most past participles **meant** is often used as an adjective that means "intended" or "purposed." For example, "I meant to call you yesterday, but I was busy at work." - This means "I intended to call you yesterday, but I did not."

Are there any other suffixes that have a similar meaning to -ment?

Yes, there are other suffixes in English that have similar meanings to -ment and can be used to form nouns from other words. Here are a few examples:

-ation: This suffix is commonly added to verbs to form nouns that denote the process or act of the verb. For example, "investigate" becomes "investigation," "educate" becomes "education," and "communicate" becomes "communication."

-age: This suffix is added to verbs to form nouns that denote a collection, act, or process. For example, "pack" becomes "package" and "marry" becomes "marriage."

-ness: This suffix is added to adjectives to form nouns that denote a state or quality. For example, "dark" becomes "darkness," "kind" becomes "kindness," and "happy" becomes "happiness."

What is the origin of the suffix -ment?

- The suffix -ment comes from French, or from Latin -mentum.
